TERMS

All trees and plants are offered F. O. B. Clarksville, N. J. Packing free. A deposit of 25% is required with each order, the balance before delivery, or shipment will be made C. O. D. for the unpaid balance.

As we are centrally located, we suggest, if possible, you call for your order so as to prevent delays caused in shipping.

GUARANTEE

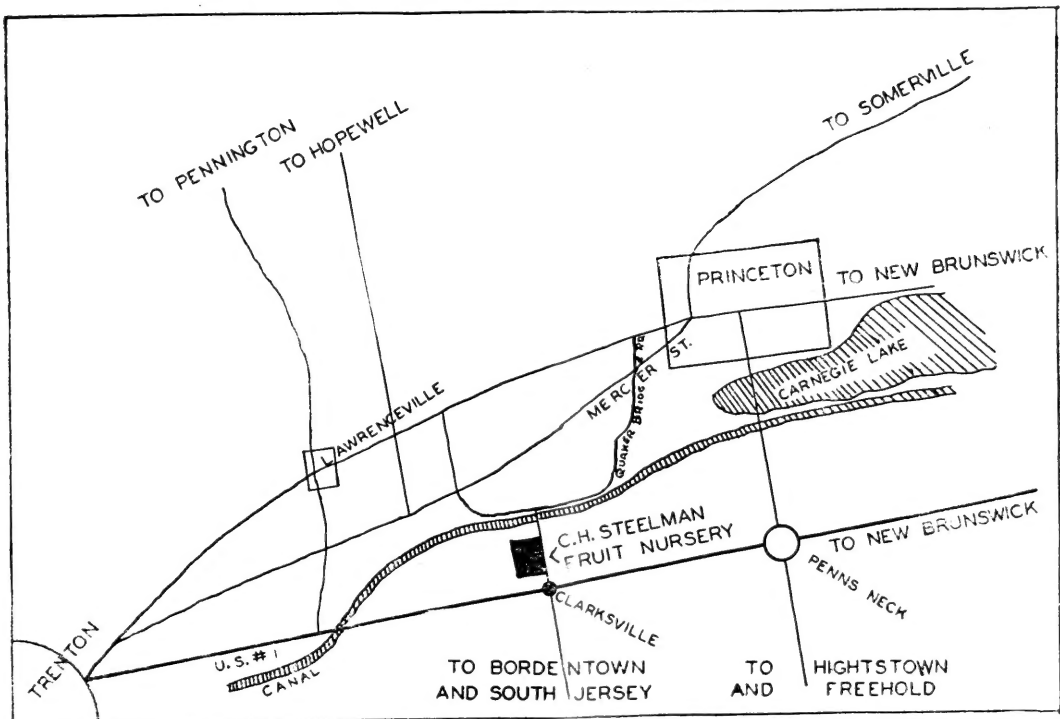

We guarantee to furnish healthy, vigorous, well grown trees or plants. We cannot be responsible for continued growth, after stock has been planted on grower's premises because such factors as faulty planting, poor soil conditions, lack of moisture, etc., are beyond our control.

All orders are accepted with the understanding that they shall be void should any injury befall our stock or should our operations be impaired by labor conditions or other conditions beyond our control.

Great care is used to avoid mistakes. In case any trees or plants prove to be untrue to the name under which they are sold, upon proper proof the original order will be replaced or the amount actually paid for such stock at the time of purchase will be refunded. The purchaser agrees to accept the stock on these terms.

LOCATION

Our nursery is located near Clarksville, N. J. on the Clarksville-Port Mercer Road, about $\frac{1}{4}$ mile from U. S. Highway No. 1. Telephone WALnut 4-2525.

PEACHES

7 *Sunhaven*

A recent Michigan introduction by Stanley Johnston. A medium to large, yellow, semi-cling, ripening just after Sunrise or approximately 10 days earlier than Redhaven. A firm, fine textured, productive peach worthy on a trial basis commercially as an early Redhaven.

7 *Redhaven*

Medium to large, midseason yellow freestone of high quality, good commercial and home peach ripening between Jerseyland and Triogem.

7 *Golden Jubilee*

Medium to large, yellow freestone of high quality, productive, and hardy. A good early variety for commercial planting as well as for roadside sales and home use.

7 *Golden Globe*

A large, firm, yellow freestone of high quality ripening with Triogem or just following Jubilee. It is not as hardy in bud as some varieties but an attractive high quality commercial variety.

7 *Halehaven*

Medium to large, midseason yellow freestone of high quality and color, productive and hardy. A good commercial peach particularly adapted to heavier soils.

7 *Richhaven*

A new introduction by Stanley Johnston of Michigan resulting from a cross of Redhaven and SH 50 (J. H. Hale X Halehaven). A large, vigorous, productive tree producing a large, bright colored, round, yellow fleshed freestone fruit. A possible substitute for Halehaven where the latter becomes too dark to be attractive. Worthy of trial in commercial plantings.

7 *Redglobe*

Medium to large, very firm, midseason, yellow freestone with bright red and yellow skin color, fine texture and good flavor. Released by the U.S.D.A. in 1954 after several years of extensive tests. A new variety worthy of test.

7 *Midway*

Medium to large, yellow freestone of high quality ripening with and just after Goldeneast. It is a good yellow colored peach with blush.

7 *Pacemaker*

A large, firm, yellow variety ripening between Halehaven and Summercrest. The tree and fruit resembles J. H. Hale. Like Hale the flower is self-sterile and needs another variety for cross pollination.

➤ **Redcrest**

A large, firm, yellow, complete freestone which is red all over. It ripens with Summercrest and M. A. Blake. Good commercial variety, however, may discolor around pit in some seasons. One of the most resistant varieties to peach canker.

➤ **Redskin**

A University of Maryland introduction ripening with Elberta. A firm yellow, freestone with attractive red color and good size, with fine flavor. A possible replacement for Elberta.

➤ **Elberta**

Medium to large, yellow freestone ripening in Central Jersey about Labor Day. Universally adapted to soil and environmental conditions. The nation's greatest planted variety.

➤ **J. H. Hale**

Large, yellow freestone with excellent quality ripening just before Elberta. It is tender in the bud. Excellent for home canning. This variety is self sterile and needs pollination.

➤ **Rio Oso Gem**

A large, firm, yellow freestone ripening about ten days after Elberta. Similar in many ways to J. H. Hale. A good commercial variety for South Jersey.

Prices:

Grade	1-9	10-24	25-99	100-250
2-3 feet	—	—	\$0.80	\$0.75
3-4 feet	\$1.75	\$1.25	\$1.00	\$0.85

***If you are interested in the peach varieties introduced by the New Jersey Peach Council, write to the New Jersey Peach Council, R. D. No. 3, Princeton, N. J.

APPLES

➤ **Lodi**

Very early, large, yellow apple similar to Yellow Transparent, ripening about the same season, but larger and firmer. A good cooking apple early in the season. (Only 1 yr. trees available).

➤ **Williams Early Red**

Very early, medium to large, red striped, productive apple. A good early dessert apple for the season.

Red Gravenstein

Red sport of Gravenstein ripening at the same early season with the high quality for eating and cooking of Gravenstein. An excellent summer apple for commercial and home use.

Starr

A very large early apple, grown commercially for baking and cooking, as a green apple. (Only 1yr. trees available)

Wellington

A promising introduction from the New York Experiment Station. A large, early summer, annual bearing, red striped apple showing good dessert and cooking promise. A possible early summer apple for trial. (Limited supply of 1 yr. trees available)

Puritan

Massachusetts Experiment Station's introduction of an early McIntosh type apple ripening in early August in New Jersey. A large, firm solid red apple as grown in Massachusetts. Good quality for dessert and a very promising apple for trial. (Only 1 yr. trees available)

Twenty Ounce

Summer apple, very large, productive, usually picked green for cooking and baking.

Opalescent

A large, very attractive, bright red apple generally harvested between Sept. 15 and Oct. 1 in central New Jersey. The trees are productive and the fruit generally commands top market prices when ripe.

Summer Rambo

An attractive, large, late summer apple of good quality. It may be harvested when still green and be suitable for cooking. When allowed to mature on the tree it develops red stripes and is suitable for both eating and cooking. The tree is strong, vigorous with large, thick, leathery leaves. It is productive and bears good crops annually.

Lobo

Medium to large red apple, similar to McIntosh but earlier, firmer, and hangs well to tree.

McIntosh

Medium to large fall apple, red, with a white, crisp, juicy flesh. Excellent dessert quality and used for sauce. A well known commercial and home variety.

➤ **Cortland**

Large, McIntosh type apple, striped to solid red, a good commercial or home variety where McIntosh does well. Stores well and is a good eating apple.

➤ **Stayman Winesap**

Medium to large, red striped, winter apple, of excellent quality for cooking and eating, adapted to commercial and home planting.

➤ **Oregon Scarlet Stayman**

This is one of the most attractive red bud sports of Stayman. It originated in Oregon. Other than developing fruit with more and better color both tree and fruit are similar to the regular Stayman.

➤ **Red Delicious**

Large, red winter apple, of excellent quality for eating, crisp and juicy, a good variety for home and commercial planting.

➤ **Double Red Delicious**

A red bud sport of Delicious with all of the good qualities of that popular variety. It may be harvested earlier and develops more red color than regular Delicious.

➤ **Yellow Delicious**

An attractive, high quality, golden yellow apple. Excellent for cooking and eating.

➤ **Turley**

A large, attractive, red apple of good quality ready to harvest about a week before Stayman. It does not crack like Stayman and develops more red color similar to but brighter than Paragon. It is an excellent cooking apple and superior to Paragon for eating. It is the most promising substitute for Stayman.

➤ **Rome Beauty**

Large, yellow apple with red stripes, very productive, annual bearer. Exceptionally good for cooking and baking and one of the best apples for storage.

➤ **Red Rome**

A red sport of Rome with all its characteristics plus the added red color.

➤ **Jerseyred (N. J. No. 1)**

Large red apple producing extra large fruits. Stores exceptionally well and has better quality than Rome. It will cook and bake better than Rome. For optimum color, do not overfertilize after the tree starts to produce.

➤ **Hyslop Crab Apple**

Large, dark red, fruiting in clusters, very productive and excellent for preserves.

➤ **Red Fleshed Crab Apple**

Large, red, with a reddish flesh, which produces an unusually attractive red jelly. It has an attractive red tinge to the foliage.

Prices:

Grade	1-9	10-49	50-99	Over 100
1 yr. 2-3 feet	\$1.25	\$1.00	\$0.75	\$0.60
1 yr. 3-4 feet	\$1.50	\$1.25	\$0.90	\$0.75
2 yr. 3-4 feet	\$1.50	\$1.25	\$0.90	\$0.75
2 yr. 4-5 feet	\$1.75	\$1.50	\$1.10	\$1.00
2 yr. 5-6 feet	\$2.25	\$1.85	\$1.35	\$1.10

***If you are interested in apple varieties on Hibernial rootstock and varieties introduced by the N. J. Apple Institute, write to the New Jersey Apple Institute, R.D. No. 3, Princeton, N. J.

➤ **DWARF APPLES**

A limited number of *McIntosh*, *Stayman*, and *Delicious* are available on East Malling IX root stocks. This is a true very dwarf rootstock producing a very small tree. These dwarf apples are recommended only for back yard planting, where space is a limiting factor. Due to the poor root system E.M. IX produces, it is wise to support these trees with a post, trellis or against a building. (Only 1 yr. trees available)

Prices:

1 yr. 3' \$3.00 each

PEARS

It is necessary to have two different varieties of pears to insure proper pollination. However, Bartlett and Seckel will not cross pollinate.

➤ **Bartlett**

Large, golden yellow with a blush, widely adaptable, excellent for commercial and home canning, ripening about September 1st.

➤ **Anjou**

Large, yellowish green, with prominent dots, excellent for home and commercial planting. Ripening after Bartlett in late September.

➤ **Bosc**

Large, tapering necked, excellent quality, pleasant aroma, brownish yellow in color, productive and hangs well to the tree, ripening late in September.

➤ **Gorham**

Similar to Bartlett in appearance and quality. Ripening about ten days to two weeks after Bartlett. Stores well, a good variety to follow Bartlett. (Only 2yr. trees available)

➤ **Kieffer**

Large, yellow with a blush, vigorous grower and more resistant to blight than most varieties, ripening in late September.

➤ **Wordon Seckel**

Medium sized, yellow brown of excellent quality fine for pickling. Identical to regular Seckel, except larger in size. It retains all the excellent qualities of Seckel.

Prices:

Grade	1-9	10-25
1 year 2-3 feet	\$1.60	\$1.40
1 year 3-4 feet	\$1.85	\$1.60
2 year 3-4 feet	\$1.85	\$1.60
2 year 4-5 feet	\$2.10	\$1.95
2 year 5-6 feet	\$2.50	\$2.10
2 year 6-8 feet	\$3.50	—

SOUR CHERRIES

➤ **Montmorency**

Large productive, vigorous, sour cherry. Excellent for pies, freezing and preserves.

Prices:

Grade	Cal.	1-9	10-24	25-49
1 yr. 5- 7/16 1½-3 feet		\$1.60	\$1.40	\$1.25
1 yr. 7- 9/16 2-4 feet		\$1.85	\$1.65	\$1.60
2 yr. 9-11/16 3-5 feet		\$2.10	\$1.85	\$1.75
3 yr. 11/16 up 4-6 feet		\$2.50	\$2.10	\$1.95

SWEET CHERRIES

It is necessary to plant two or more varieties of sweet cherries to insure pollination and fruit set.

➤ **Black Tartarian**

High quality, juicy, rich, sweet, large, reddish black cherry, excellent for canning, heavy producer, ripening in mid June.

➤ **Napoleon Bigarreau—(Royal Anne)**

High quality, rich, sweet, large yellow cherry with a pink cheek, ripening in late June.

➤ **Windsor**

Good quality, juicy, large, sweet, almost black cherry, a good producer, ripening in early July.

Prices:

Grade	1-9	10-25
2 yr. 4-5 feet	\$2.75	\$2.25

PLUMS

➤ *Stanley*

Large, juicy, dark blue, flesh yellow green, good quality, ripening in early September.

➤ *Fellenberg—(Italian Prune)*

Medium sized, oval, juicy, dark purple, good quality for dessert and market, ripening in mid September.

Prices:

Grade	1-9	10-25
2 yr. 4-5 feet	\$2.50	\$2.00

➤ BEACH PLUMS

Seedling Beach Plums good for jams and jellies. Fruit similar to that of native bushes on New Jersey, Long Island and Massachusetts coasts.

Prices:

Grade	1-9	10-24	25-100
3 yr. 4-5 feet	\$1.75	\$1.25	\$1.00

CHESTNUTS

➤ *Chinese Chestnut*

Resistant to the chestnut blight, bearing fruit varying in size from that of the American to that of the European.

At least two trees should be planted for cross pollination.

Prices:

Grade	1-9	10-25
2-3 feet	\$1.50	\$1.30
3-4 feet	\$1.75	\$1.60
4-5 feet	\$2.00	\$1.80
5-6 feet	\$2.25	\$2.00
6-8 feet	\$4.00	\$3.50

GRAPES

➤ *Concord*

Blue black, mid-season, good quality, medium to large cluster and berries, widely adaptable to locality, excellent for juices and jellies.

➤ *Niagara*

White, mid-season, good quality, medium to large clusters and berries, a good eastern white grape.

➤ **Brighton**

Red, mid-season, high quality, medium to large cluster and berries, excellent for eating, a good local market grape. It is sterile and must be planted with another variety for pollination.

➤ **Sheridan**

Black, late, good quality, medium to large cluster and berry, does best on fertile heavier soils and must be pruned severely.

➤ **Fredonia**

Blue black, early, good quality, medium to large cluster and berries, excellent early commercial variety.

Prices:

Grade	1-9	10-49	50-99	Over 100
1 year	\$0.50	\$0.40	\$0.30	\$0.20
2 year	\$0.65	\$0.50	\$0.35	\$0.25

➤ **Schuyler**

Early black grape which produces large clusters. It is an American-European hybrid and shows promise as a red wine grape and for table use.

➤ **Steuben**

A late midseason black grape ripening with Concord, Vigorous, productive and winter hardy. The clusters are long, compact and tapering and the fruit is sweet. It shows some promise as a red wine grape.

➤ **Golden Muscat**

A white, midseason, large, high quality grape. A vigorous plant similar to European varieties. It has a tendency to winter injury but a good table and juice grape.

Prices:

Grade	1-9	10-49	Over 50
2 yr.	\$0.75	\$0.65	\$0.50

NEW GRAPE VARIETIES

➤ **Romulus**

A late seedless ripening about with Concord, productive, large compact clusters, a good quality, yellow, sweet seedless grape. One of the most promising seedless grapes introduced to date.

➤ **Interlaken**

An early seedless grape ripening about 2-3 weeks ahead of Romulus. A medium sized, golden yellow, sweet, seedless grape with medium sized clusters. A promising earlier seedless grape.

Prices:

Grade	1-9	10-49
1 yr.	\$1.25	\$1.00
2 yr.	\$1.50	\$1.25

RASPBERRIES

➤ *Latham*

Midseason, red variety, producing a good crop of large fruits. One of the popular commercial varieties.

Prices:

	5	10	25
1 year	\$1.75	\$2.75	\$5.00

EVERBEARING RASPBERRIES

➤ *September*

A new everbearing variety which ripens its summer crop in July. It is medium firm, bright red and shows no tendency to crumble. The fall crop is excellent in quality and ripens well before frost. A good variety to try for the home garden.

Prices:

	5	10	25
1 year	\$2.00	\$3.50	\$7.00

BLACKBERRY

➤ *Jerseyblack*

A vigorous thorny, semi-trailing, medium to large, high quality, firm blackberry. Ripens the latter part of July in central Jersey. Recently introduced by New Jersey Experiment Station.

Prices:

	5	10	25
1 year	\$3.00	\$5.00	\$10.00

BLUEBERRIES

➤ *Earliblue*

Early, high bush, high quality, productive, vigorous, firm, large berry.

➤ *Stanley*

Midseason, large sized, high bush, vigorous, productive, good quality berry.

➤ *Jersey*

Late, vigorous, high bush, very productive, high quality berry. Plant has beautiful summer and fall foliage.

Prices:

	1-9	10-24	25-100
3 yr. 18-24"			
3 or more branches	\$1.90	\$1.40	\$1.20

STRAWBERRIES—For Spring Deliveries Only

➤ *Pathfinder*

Early midseason, a vigorous grower, very productive, good quality, bright, attractive berry, which picks over an extended period. A good variety to preserve and quick freeze.

➤ *Redcrop (N. J. No. 377)*

Early midseason, vigorous grower, productive, high quality, firm, attractive berry. Red throughout and without hollow center, very good for freezing.

➤ *Catskill*

Early midseason ripening with Redcrop. A large, good quality, vigorous, bright colored berry, recommended highly for northern berry growing.

➤ *Sparkle (N.J. No. 312)*

Midseason, a medium sized, high quality, very productive, firm, bright, attractive berry. A prolific plant maker. It makes a good frozen product.

➤ *Redwing (N. J. No. 347)*

Midseason to late, a very large, attractive, good quality, firm, red berry.

➤ *Jerseybelle (N. J. 7A)*

Midseason to late, very large, very firm, attractive orange red berry. First berries have attractive double cap. It is a good yielder and shipping berry as proven in New Jersey.

Prices:

25	50	100	250	500	1000
\$1.50	\$2.50	\$4.00	\$8.50	\$12.00	\$19.00

***20% Discount on orders of 500 or more strawberry plants of one variety, if called for and taken, as dug from the field. Field run plants will not be shipped, express or parcel post.

Plants shipped parcel post at your request will be packed free of charge and postal charges should be included as listed below:

Parcel Post Charges:
